SMARTLINQ

MAXIMIZE YOUR UPTIME!

Peterbilt's SmartLINQ™ complements fleet management operations by providing real-time notifications should a vehicle's onboard diagnostics system generate a service event. This easy-to-use, web-based system helps you prioritize which trucks should be serviced at the next convenient opportunity or which may need immediate attention. SmartLINQ provides four levels of notification – Stop Now, Service Now, Service Soon and Informational – as well as the fault codes generated from any vehicle requiring service. SmartLINQ allows the fleet to proactively schedule a service appointment with a Peterbilt dealer to ensure the needed resources are available when the vehicle arrives for service, getting your truck back on the road as quickly as possible. With SmartLINQ, Peterbilt helps you eliminate unscheduled downtime, maintain on-time freight delivery and maximize profitability.

HERE'S HOW IT WORKS:

SmartLINQ monitors each vehicle's diagnostics to detect when a diagnostic code is activated.

The on-board modem communicates the code information, including all event data, to SmartLINQ's back-office services powered by PACCAR Solutions.

The back-office service analyzes the diagnostic code within minutes and communicates information to the fleet manager, as well as displays the detail in the PACCAR Solutions' Web Portal. Code severity, possible solutions and the nearest Peterbilt dealership recommendations are also provided.

Once the information is reviewed, an action plan can be developed between the fleet manager and the preferred dealer keeping the truck in operation as long as possible before service is required.

SmartLINQ's web portal provides a geographical view of a fleet's vehicles, color coded by severity. Data can be sorted by diagnostic code, code severity and its geographical location to easily see the vehicle's diagnostics information.

By selecting a Vehicle Identification Number, key information is displayed such as diagnostics data, troubleshooting guidance, recommended actions as well as the nearest Peterbilt dealership for quick and convenient service.
