

## FEATURED PRODUCT

# PALLET JACK WEIGH SCALE

### Frame

- Rugged Heavy Duty Frame constructed of one-piece formed channel steel offering light weight strength.

### Forks

- Reinforced for added strength with tapered ends for easy pallet entry.

### Paint

- The CJ44W boasts a quality Powder Coat finish.

### Hydraulic Pump

- Quality design complete with a special lowering valve allowing controlled rate of descent, and an overload by-pass valve.

### Handle

- Featuring a reinforced base, the spring-a-matic handle returns to the upright position automatically.

### Control Handle

- The control handle has three positions (raise/neutral/lower) fingertip control. Ergonomically designed and free of pinch points.

### Load Rollers

- Features 2.75" polyurethane rollers with sealed bearings.

### Rechargeable Battery Pack

- Rechargeable battery pack built into the LCD readout panel. Readout panel has a standard 110 V plug in capability (the plug in cord comes standard with the unit as well) so they can use either battery or AC power. Also standard is a built in charger that charges the battery pack whenever the unit is plugged in.

### Pump Stroke

- Features a full 90 degree top to bottom stroke requires only 10 strokes to raise the forks to the maximum lift.

### Steering

- Featuring 200 degree pivot action for greater maneuverability with 6.3" polyurethane wheels, sealed bearings and "Ball-Thrust" steering.

### Push Rods

- The adjustable push rods allow for individual adjustment capability of either fork height.

### Hangers

- The one piece hangers are constructed of Iron Cast for greater strength and longevity.

### Helper Rollers

- Features 4 helper rollers for easy exit and entry of pallets.

### Pivot Points

- The CJ44W features grease fittings and bushings at all pivot points for easy maintenance.

### Options

- CJ44WA adds an Automotive Brake Attachment to the CJ44W.
